DETAILED ACTION

1. This application has been examined. A preliminary amendment filed February 12, 2004, drawn to changes to the abstract and the specification has been entered. Claims 1-4 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is two sentences rather than one sentence.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3, and 4, as presently understood, are rejected under 35 U.S.C. 102(b), as being anticipated by Wolfe (Figure 3). In particular note (column 4, lines 14+) the rotary connector 5, 6, a gardening hose 9, and a support frame 11 for the hose reel. A reel cover 3 notch helps to prevent the hose from becoming tangled.
